Length	4100 mm
Width	2200 mm
Height	2200 mm
Weight	500 kg

STORAGE CONTAINER 2 M

Length	2100 mm
Width	2200 mm
Height	2200 mm
Weight	350 kg

STORAGE CONTAINER 5 M

Length	5100 mm
Width	2200 mm
Height	2200 mm
Weight	600 kg

STORAGE CONTAINER 3 M

Length	3100 mm
Width	2200 mm
Height	2200 mm
Weight	400 kg

STORAGE CONTAINER 6 M

Length	6100 mm
Width	2200 mm
Height	2200 mm
Weight	750 kg

CONTAINERS TC

CONTAINER TC 3M

Length	3100 mm
Width	2200 mm
Height	2200 mm
Weight	450 kg

Internal dimensions of one cell:

Length	1430 mm
Width	2050 mm
Height	2050 mm

CONTAINER TC 4M

Length	4100 mm
Width	2200 mm
Height	2200 mm
Weight	550 kg

Internal dimensions of one cell:

Length	1930 mm
Width	2050 mm
Height	2050 mm

CONTAINER TC 5M

Length	5100 mm
Width	2200 mm
Height	2200 mm
Weight	650 kg

Internal dimensions of one cell:

Length	2430 mm
Width	2050 mm
Height	2050 mm

CONTAINER TC 6M

Length	6100 mm
Width	2200 mm
Height	2200 mm
Weight	800 kg

Internal dimensions of one cell:

Length	2930 mm
Width	2050 mm
Height	2050 mm

CONTAINERS B

CONTAINER B 3M

(two cells)

Length	3100 mm
Width	2200 mm
Height	2200 mm
Weight	450 kg

SHED

SHED 2M

Length	2100 mm
Width	2200 mm
Height	2200 mm
Weight	300 kg

Storage containers manufactured by us are made of high quality materials. The entire structure of the container is made of galvanized profiles with a thickness of 2 mm, and the sheathing of the container is made of a very durable aluzinc sheet with a thickness of 0.7 mm. We send storage containers via forwarding companies, containers are sent in the transport position, for self-assembly. Thanks to the bolted construction, we can deliver several containers with one transport

We guarantee the highest quality of our services, therefore customer satisfaction is the most important thing for us. You can count on professional advice at every stage of cooperation. We will help you choose the container you need, we will provide assistance in the selection of materials. We offer assembly and transport of our products. First of all, we guarantee trouble-free use

In the standard version, storage containers are equipped with a handle and locked with a key

SHED 3M

Length	3100 mm
Width	2200 mm
Height	2200 mm
Weight	350 kg

Storage containers are equipped with a double-leaf, metal door, mounted on a frame made of galvanized sheet. There is a bolt on the right wing, while the left one is equipped with a leg, a lock and a handle

CONTAINERS WK

The floor is made of hot-dip galvanized truss. Available in 2M and 3M versions

The floor of the container is made of a four-sided planed board, tongue and groove, 32 mm thick

The corners of the storage container are made of 3 mm thick sheet metal. The corners have pins for stacking packages

The door of the container is mounted on solid galvanized hinges, with the possibility of adjustment

ACCESSORIES

WINDOW

PVC window with tilt and turn, double glazing. Dimension: 865×835 mm. Mounted in the side wall of the container

MESH DOOR
